## PROFILE

---

Final-year B.Tech Information Technology student with a strong foundation in Data Analytics and Artificial Intelligence & Machine Learning (AIML). Passionate about leveraging technology to solve real-world problems and eager to continuously learn and apply emerging tools and techniques in this domain.

## EDUCATION

---

**B.Tech in Information Technology [IT] - CGPA: 8.68**  
CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

2022 – present  
Anand, Gujarat

**HIGHER SECONDARY CERTIFICATE - 78%**  
P.P Savani Chaitanya Vidiya Sankul

2020 – 2022  
Surat, Gujarat

## PROJECTS

---

### CineSense-Movie Recommendation System

07/2024 – 11/2024

- Developed a Python-based movie recommendation system using K-Nearest Neighbors (KNN) to suggest movies based on user ratings and item-item correlations.
- Utilized the MovieLens dataset with thorough data preprocessing, including handling missing values and sparse matrices.
- Designed a web-based interactive interface using Flask, with front-end built using HTML/CSS, enabling users to input a movie title and receive top recommendations.

### tallyINFO-Fake News Detector

12/2023 – 04/2024

- Developed a machine learning-based web application to classify news articles as *real* or *fake* using the Passive Aggressive Classifier (PAC).
- Achieved 96% accuracy through effective text preprocessing, TF-IDF vectorization.
- Built the frontend using HTML/CSS and integrated it with a Flask backend for real-time user predictions.
- Implemented NLP techniques including tokenization, stopword removal, and lemmatization for accurate input processing.

## INTERNSHIP

---

### WAY2CIS LLP

05/2024 – 06/2024  
Ahmedabad, Gujarat

- Gained hands-on experience in writing and optimizing Oracle SQL queries for data retrieval, manipulation.
- Practiced using aggregate functions, joins, and grouping to analyze structured data.
- Gained introductory knowledge of Oracle Database concepts and relational table structures.

## SKILL

---

**Programming Language:** C, C++, Python

**Visualizing Tools:** Excel, Power BI

**Database Management:** Oracle SQL

**Other Skills:** Data Analysis, AIML

**Competitive Programming:** Hacker Rank, Leetcode, CodeChef

**Soft Skills:** Communication, Adaptability, Teamwork

## CERTIFICATES

---

### NPTEL

Data Structure and Algorithms

Python for Data Science

Operating System Fundamentals
